INTRODUCTION

Welcome to Phanteks!

The P600S combines the best of 2 worlds with its high quality sound dampening panels and the ultra high airflow fabrics from Phanteks. Achieving both a quiet system and a high airflow configuration.

The durable fabric, carefully selected by Phanteks, results in a much lower airflow resistance compared to standard mesh panels. Keeping air speed higher and noise levels lower.

*Phanteks believes that meaningful designs are created through the fusion of form and function.*

*The Phanteks team*

### 3.5” MODULAR HDD BRACKET
- 4 included in accessory box
- For 3.5” or 2.5” Drive

### PREMIUM FAN 140 MM
- 3 Pre-installed
- High static pressure
- Silent operation

### VERTICAL GPU MOUNT
- Included in accessory box
- Riser Cable is sold separately

### AIRFLOW COVER
- Included in accessory box
- Magnetic

### ACCESSORY BAG AND TOOLBOX

**Accessory bag**

- GPU Anti-Sag Bracket
- 6x Zip Tie 150mm
- Phanteks Logo Badge

The P600S has the most versatile chassis design, providing you with a myriad of options. With so many possibilities to pick from, you can use this overview to choose and plan the best configuration for your build.
The P600S can be transformed from a Silent to a High Airflow configuration. The magnetic front and top Silent Covers can be easily removed or installed. By removing the Silent Covers the air intake and outtake surface area is increased dramatically, allowing a much higher cooling capacity.

Heavy and sound dampening panels reduce noise levels and improve acoustics.

High performance fabric from Phanteks enhances the cooling performance while lowering noise levels.
GET STARTED

PREPARATIONS

- The P600S case is designed to support installation in a standing position.
- Don’t turn on the power to your system until installation is complete.
- Discharge your body’s static electric charge by touching a grounded surface before performing any hardware procedure.
- Make sure to consult the manuals of your hardware before installation.

⚠️ If you do not feel comfortable with performing the installation procedure, consult a qualified computer technician.

1. REMOVING FRONT PANEL

2. REMOVING TOP PANEL

LOosen:

4 x
3. **REMOVING SIDE PANEL**
Open the side panel more than 90 degrees and lift it up near the hinges.
Use the motherboard screws from the toolbox to install your motherboard on the pre-installed standoffs.

STANDOFF POSITIONING

ATX / E-ATX (Pre-installed)

Micro ATX (install extra standoffs)

Some motherboards require installation or repositioning of the standoffs. Please consult your motherboard manual for the correct standoff positioning.

These standoffs have a special collar to keep the motherboard in place when installing vertically.

By loosening the thumb screws you can slide the Cable Covers left and right for optimal cable management.
The power supply can be installed by removing the PSU bracket on the rear of the case chassis.

Connect all needed cables to the power supply before installing it in the case.
INSTALLING FANS

Configure your airflow-path with this overview. All fan locations support both 120mm and 140mm fans.

**PRO TIP**

Install the magnetic Airflow Cover to prevent air from re-circulating when you install 2x 120 mm or 2x 140 mm fans.

**REQUIRES:**

- 140mm Fan
- 120mm Fan
- Airflow Cover

**TOP**

140 FAN

120 FAN

**FRONT**

140 FAN

120 FAN

**REAR**

- Screws
CONNECTING THE UNIVERSAL FAN HUB

1. **CONNECT THE FAN HUB 4-PIN INPUT CABLE TO YOUR MOTHERBOARD FAN HEADER**

2. **CONNECT EXTRA FANS TO THE CORRESPONDING CONNECTOR ON THE UNIVERSAL FAN HUB**

3. **CONNECT THE SATA CABLE TO THE POWER SUPPLY**

---

You can choose a PWM or DC output in the motherboard settings. The Fan Hub will automatically translate the signal to all connected 3- and 4-pin fans. Check [WWW.PHANTEKS.COM/FAQ](http://WWW.PHANTEKS.COM/FAQ) for more technical details.

Choosing a PWM output provides the most customization options in the motherboard settings.

Expand the number of fans with splitter cables up to a maximum of 4A total power. Splitter cables are sold separately: PH-CB-Y4P / Y3P

---

The White Connector will provide the RPM signal to the motherboard.
2.5” SSD INSTALLATION

Install the SSD in to the SSD brackets before placing them in the chassis.

**PRO TIP**

Make sure to install the screws into the SSD once it rests in the SSD bracket to secure its position.

REQUIRES:

4 x
3.5" HDD INSTALLATION

4x Phanteks Stackable 3.5" HDD Brackets are included. Additional brackets are sold separately (PH-HDDKT_03).

The HDD bracket can also house a 2.5" SSD instead of a 3.5" HDD.

HDD INSTALLATION

STACK / INSTALL

1. LIFT UP LATCH
2. PULL OUT

Each HDD bracket can be stacked together to offer more flexibility.

BOTTOM COMPARTMENT

The Bottom Compartment can house up to 2 or 4 Stackable HDD trays. Using Position B will not limit PSU or Front radiator clearance.

POSITION A+C

POSITION B
MAIN COMPARTMENT

Up to 6 Stackable HDD Brackets can be installed in the main compartment.

1. **REMOVE THE CABLE COVER(S) TO REVEAL THE HDD MOUNTS**

2. **MOUNT THE (SINGLE / STACKED) HDD BRACKETS IN POSITION**

3. **SECURE WITH 2 THUMBSCREWS**

REQUIRES:

- Up to 6 Stackable HDD Brackets can be installed in the main compartment.

Stack the HDD brackets before mounting if you install more than 1x bracket.
REQUIRES:

- Use the Airflow Cover to prevent hot air from circulating.

MAX. RADIATOR CLEARANCE

140mm Radiators: A:405mm  B:146mm  C:65mm
120mm Radiators: A:405mm  B:126mm  C:65mm*

*If the motherboard and its components (e.g. memory) are 50mm or lower there is no limit in Radiator thickness.

Installing a fill port in the top radiator bracket and/or a drain port in the front of the case makes water cooling maintenance much easier. The port diameters are 20.5mm.

Phanteks Passthrough fitting: PH-PTF_BK/CR_G1/4
Phanteks Ball-Valve fitting: PH-BVA_BK/CR_G1/4
Reservoir mounting points are accessed by removing the Cable Covers.

**OPTIONAL PUMP BRACKET**

The universal Pump Bracket can be installed in the bottom compartment using 4 case screws.

*Pump Bracket sold separately (PH-PUMBKT_01)*
To prevent your GPU from tipping down you can install the GPU Anti-Sag Bracket.

**INSTALLING GPU ANTI-SAG BRACKET**

1. **INSTALL ALL GPU AND PCI CARDS**
2. **PLACE THE GPU ANTI-SAG BRACKET**
3. **INSERT THE THUMBSCREWS WITHOUT TIGHTENING THEM**
4. **PRESS DOWN AND LOCK THE THUMBSCREWS IN POSITION.**

**REQUIRES:**

- 2x

Always loosen the 2 thumb screws before removing any GPU or PCI cards.

**PRO TIP:**

Hold the GPU in the correct position when tightening the thumbscrews.
Please consult the motherboard manual for additional instructions.

⚠️ Please make sure to consult your motherboard manual before connecting your front I/O.

---

**TO MOTHERBOARD**

- **POWER BUTTON**
  - Power SW
- **POWER LED**
  - Power LED
- **2X USB 3.0**
  - USB 3.0
- **RESET BUTTON**
  - Reset SW
- **HEADPHONE**
- **MICROPHONE**
  - HD AUDIO
- **USB 3.1 GEN 2 TYPE-C**
Use the double-loop Velcro ties to route your cables. Zip ties are included in the accessory bag to manage any excess cables.

PRO TIP
Use the double-loop Velcro ties to split the cables into 2 channels.
The P600S is equipped with a front and bottom PSU filter. We recommend to clean these filters every month to keep your cooling performance optimized.

**PSU DUSTFILTER**

If cleaning the dust filters with water, make sure to properly dry them before placing them back.
The high-performance fabric on the front and top of the P600S acts as an extra dust filter and can be easily cleaned with a vacuum cleaner. There is no need to remove the panels from the case.
<table>
<thead>
<tr>
<th>Optional Upgrades</th>
<th>Description</th>
</tr>
</thead>
</table>
| **3.5” STACKABLE HDD BRACKETS** | PH-HDDKT_03  
For 3.5” or 2.5” Drive  
Upgrade up to 6x additional 3,5” HDDs with the optional HDD brackets.  
Contains 2x Stackable HDD Brackets. |
| **HIGH STATIC PRESSURE MP FAN** | PH-F120MP / PH-F140MP  
More fans can be installed in the P600S and connected to the Universal Fan Hub. |
| **Y-SPLITTER CABLES** | PH-CB-Y4P / PH-CB-Y3P  
4-pin / 3-pin Fan splitters  
Using splitter-cables you can install more than 8 fans to the Universal Fan Hub. |
| **CABLE EXTENSION SET** | PH-CBCMBO  
- Available in multiple colors  
- Includes clear cable combs  
- Also available as separate cables  
**Included cables:**  
- Motherboard 24-pin  
- CPU 4+4-pin  
- 2x GPU 6+2-pin |
### 220mm Slimline PCI-e x16 Riser Cable 90°  
**PH-CBRS_SL22**

### 220mm Premium Shielded High Speed PCI-e x16 Riser Cable 90°  
**PH-CBRS_PR22**

### 220mm Flatline PCI-e x16 Riser Cable 90°  
**PH-CBRS_FL22**

With the optional Riser Cable you can place any 2-slot or 3-slot GPU vertically.*

---

**Page 27**

* For System 1 only.

### Revolt X Power Supply  
**PH-P1000PS / PH-P1200PS**

The Revolt X power supply unlocks the Dual System Configuration.

But also works great as a “single system” power supply.

---

**Page 11**

### ITX Upgrade Kit  
**PH-ITXKT_R01**

The Streamer Kit contains an ITX bracket and a 600mm X1 Riser Cable. This allows for an ITX motherboard in the top of the chassis and a vertically placed PCI-e card.

---

**Page 28**

### 600mm Premium Shielded High Speed PCI-E x16 Riser Cable 90°  
**PH-CBRS_PR6**

With the optional Riser Cable you can place any 2-slot or 3-slot GPU vertically for your 2nd ITX system. With 16 lanes and high quality shielding it maximizes any GPUs’ performance.

---

**Page 29**
1. **INSTALL RISER CABLE WITH 2X RISER CABLE SCREWS**
   
   Riser Cable sold separately  
   (PH-CBRS_SL22)

2. **INSTALL VERTICAL GPU MOUNT WITH 2X HEX SCREWS**

*PRO TIP*

The GPU Mount has 2 mounting positions. Position A allows for better air cooling and 3-slot GPU cards.
1. **REMOVE THE TOP PANEL AND THE DUAL SYSTEM COVER FROM THE CHASSIS**

2. **INSTALL YOUR ITX MOTHERBOARD ON THE BRACKET USING THE INCLUDED MOTHERBOARD SCREWS**

3. **CONNECT THE POWER SWITCH AND LED CABLE**

4. **INSTALL THE ITX BRACKET WITH 4X ITX BRACKET SCREWS**

---

**REQUIRES:**

- Screws are included in the kit.

---

**WARNING:** The Revolt X power supply from Phanteks is required for this configuration.
To minimize cable-clutter we recommend the following cable routing for the System 2 cables.

**SYSTEM 2 CABLES**

**RISER CABLE**

**CPU CABLE**

**MOTHERBOARD CABLE**

The Revolt X includes 2 different 24-pin Motherboard cable lengths; 610mm and 710mm.

Use the longer, 710mm, 24-pin cable for the System 2 ITX motherboard.

SYSTEM 1
24-pin Motherboard

SYSTEM 2
24-pin Motherboard

610 mm

710 mm
1. **INSTALL RISER CABLE ON THE VERTICAL GPU MOUNT**

![Image of GPU Mount]

REQUIRES:
- 2x screws

2. **INSTALL VERTICAL GPU MOUNT WITH 2 X SCREWS**

PRO TIP: The GPU Mount has two mounting positions. Position A allows for better air cooling and 3-slot GPU cards.

![Image showing vertical GPU mount installation]

3. **MOVE VELCRO TIE**

![Image showing velcro tie movement]

4. **CONNECT SATA CABLE** (only for X1 Riser cable)

![Image of SATA cable connection]

Depending on your needs, it's not always necessary to install a GPU for your second system when your CPU is equipped with an integrated GPU.
As a Phanteks customer, you are priority number one. We have a dedicated team of employees across the globe working hard every day to make sure we deliver the superior experience you deserve. We are here for you. If you have a question or a concern about our products, we have numerous ways you can reach us. Please choose one most convenient for you to connect with our team.

For up-to-date information please check www.Phanterks.com
PHANTEKS warrants its products to be free from defects in material and workmanship during the warranty period; when given normal, proper and intended usage. If a product proves to be defective in material or workmanship during the warranty period, PHANTEKS will, at its sole option, repair or replace the product with same product or similar product. The replacement product assumes the remaining warranty of the original product or 30 days, whichever provides longer coverage for the customer.

**DURATION OF WARRANTY:**
1. Fans - 5 years
2. I/O Ports - 2 years
3. Fan Hub -2 years
4. LED Lighting - 2 years
5. Buttons - 2 years
6. Chassis - 5 years
7. Front and Top Panels - 5 years

Please check www.phanteks.com/Warranty for more information.
